I have been going over 5 yrs to Cranston Family Cosmetic Dentistry. I see Dr. Snehal Lakhkar she is knowledgeable about conveying the science behind what are the healthiest options that you can have for the upkeep of your teeth. She will explain in laymans terms, and does so eloquently. Did you ever hope for a smart, and think outside of the box Healthcare provider? She is THAT DENTIST. YOU know you want the "brains of their class" that is her, and then some. Great team! Give them a try. You will not be disappointed.

no-one loves going to the dentist, but if you are in need of one, Dr. Prasad and staff are the best. From the moment you walk in, the staff greets you like an old friend offering you coffee, water, or juice. All safety precautions are in place and immediately you realize that this is going to be a pleasant experience. If your there for a cleaning, Karla will make you mouth and teeth feel so good. If your there for consultation, Dr. Prasad with patience, will outline all the choices and the pro and cons. You are never rushed to make a decision. Believe me, this is not a "get rich quick" operation. A personal note,: Dr Prasad, please don't retire

★☆☆☆☆ *I am very disappointed. I have been a patient ...* — **Richard D.** (Patient since 2010)  
I am very disappointed. I have been a patient of the practice for years. My teeth have been in the same condition since I started. But every time they have the chance they try to upsell cosmetic fixes, which I have time and time again told them I had no interest in. This last visit was to see the doctor because after using the whitening products my bonding discolored and flaked. I wanted to have it fixed I have had done for other reasons in the past. And the worst part was I received note from my insurance that my wasted time appointment for them to do absolutely nothing that I requested, was billed to them. I am reconsidering staying with this practice now.

I always love my experience at Dr. Prasad's office. I am consistently greeted by name and always offered a drink and a comfortable chair in the modern, beautifully decorated waiting room. The word "waiting" hardly ever applies here as I have never waited more than a minute to be met by Dr. Prasad, Carla (one of his hygienists) or other staff member. Mostly, the quality of the workmanship and care provided by Dr. Prasad and his team is absolutely above reproach. Thank you Dr. Prasad!

★★★★★ *Best practice EVER* — **Derek S.** (Patient since 2016)  
I found Dr. Prasad because I need a sleep apnea mouth piece. I was blown away by the practice in every way. I mean blown away. My first question as I was scheduling my next visit for the guard was so they do regular dentistry. When I was told yes I was extatic. I immediately made an appt. I was hoping my service on that end it would be at least almost as good and again my wishes were met and exceeded. The place is clean, staff is extremely friendly. They make you feel like you are the most important patient they have. I was telling my wife about them and the best way I could get her to understand was to say they feel like a concierge dentist to the wealthy but they give that service level of service to everyone. Dr. Prasad is not only the nicest and best dentist I have ever had but one of the best and niciest Dr's I have ever had. Laura is one of the staff members and is extremely friendly and sweet. She engages with you and makes you feel welcome along with her services at the front of house, she also dose cosmetic whitening at the back. I had never had it done but I was

interested so I decided to try it. I was an ex cig smoke and I drink coffee and smoke cigars. She did not blow smoke up my butt. She told me what exactly to expect. I was not going to go brilliant white because of the years and color etc. but it would get a lot better and it did. She explained the process up front and again as we went along. When I had a question any time during the process, even if I felt it was dumb she never made it seem like she felt it was. I just can't rave about them enough. I tell everyone I know.

Dr. Prasad and his team are the best. For several years I was afraid to go to the dentist. It made me uncomfortable and always felt rushed and sterile. My husband suggested I make an appointment with his dentist... And when I arrived at my first appointment at Dr. Prasad's office, is when everything changed. I was greeted with open arms. From Laura's warm welcome at the desk, to Carla and her comforting ways during my first cleaning, all my fears were immediately extinguished. Dr. Prasad has such a gentle calming disposition, allowing me to settle in, at my own pace, understanding exactly what I needed to be able to continue my treatments. Comfort should not just be reserved to things that are easy. In the hardest, most uncomfortable situations, is when we all need comfort the most. And I am so happy to say, I found it here. Thank you so much. My husband and I could not be happier with Dr. Prasad and his amazing team.

It's always nice to see Laura at the front desk with a friendly smile to greet you when you arrive. When I have questions or concerns she always has the answers. The Staff is also, very friendly and professional, they know I have high anxiety when sitting in the chair and they help clam me. Dr. Prasad, is the only dentist in all my years going to a dentist, that I can honestly say makes I feel safe when doing a procedure. He is always put his patient needs first.

★☆☆☆☆ *was given the wrong information* — **Michael W.** (Patient since 2013)  
when I went into the office on Thursday I was told I needed a root canal so we schedule it for Saturday at 2:30 p.m. after I was seated and looked at from a different doctor I was then told he could not perform root canal due to the tooth was too far gone well I think they should have been caught during the first examination so I didn't waste an entire Saturday and I'm very disappointed with the service
